marciazanele29@gmail.com

Dear Hiring Manager,

I am writing to apply for the post advertised by your company. I have a Higher Certificate in Information Communication Technology. I have been working with the java language and have developed several programs using different programming languages. I have skills in SQL, Java, Python, CSS, HTML, PHP, and JavaScript and currently learning C#. The skills that I have learnt and developed during these years make me believe I am confidently suitable for this position.

The role is very appealing and very compelling to me, and I believe that even though I do not have much experience in this field, my ICT in Higher Certificate and the experience that I have gained while I was working as an Intern in software development has equipped me with the essential skillset and the practical work I have done at Achievement Awards Group, would make me a highly competent and fitted candidate for this position.

Personally, I define myself as a conscientious person who is dedicated, works hard, and pays attention to detail. I try to pick up new skills and learn as fast as I possibly can, and I am eager to learn from others. I'd like to think that I have good skills in critical thinking and decision making. I enjoy working in a team and able to handle pressure. The Work Experience would expose me to many new challenges, and which will provide me with a steep learning curve as I advance and grow in this career path.

I can be reached at any time via email at marciazanele29@gmail.com or by cell phone, 065 833 348 4.

Thank you for taking the time to consider this application and I look forward to hearing from you about this opportunity.

Sincerely,

Marcia Zanele Bika
